

## VersaCAD 2005 Built for Mac OS X

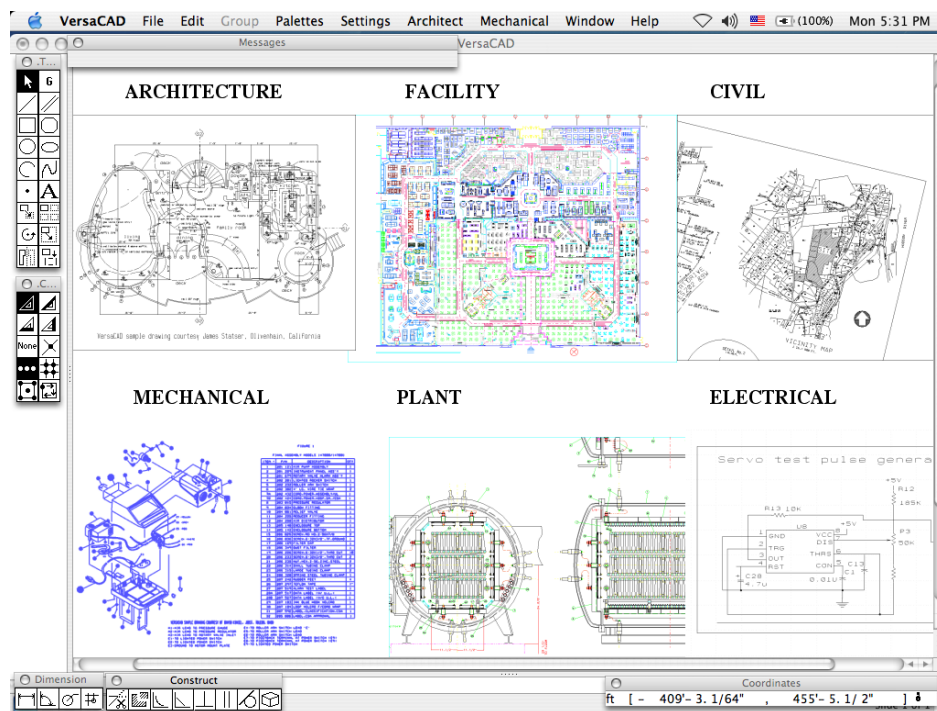

*The Practical, Versatile & Economical CADD Software*

[www.versacad.com/versacad/vcadmac.htm](http://www.versacad.com/versacad/vcadmac.htm)

VersaCAD by Archway Systems is the practical, easy-to-use yet affordable computer-aided design and drafting (CAD) software. It is logically structured and compatible with all computer-aided design software programs with versions for either Macintosh or Wintel-based platforms. Use VersaCAD for the seamless translation of any CAD system files by using its DXF, DWG, IGES translator.

VersaCAD's versatility allows for wide-ranging architectural, engineering and design applications including facilities planning. In addition to your designs, use VersaCAD to create marketing and other operational documentation like catalogs, installation guides and computer network, wiring, and telecommunications schematics. You can even create office layouts, area calculations and furniture arrangements.

***VersaCAD is the product designed for use where speed and efficiency are paramount.  
No other CAD software matches its processing speed or its versatility in  
creating computer-aided designs.***

VersaCAD 2005 – The Practical, Versatile, Economical CAD Software

***Economy is key. No other CAD software can beat VersaCAD's value.***

### **Introducing VersaCAD's New Unlimited Corporate License and Right to Donate Option**

Archway Systems now offers its revolutionary VersaCAD Unlimited Corporate License that reduces costs and increases work quality by making it easily affordable. Subscribers now purchase an unlimited corporate license based on the number range of employees in an organization. The license allows for users to install VersaCAD on every system within an organization, even those used at home by company employees. The new VersaCAD Unlimited Corporate License also gives licensees the right to donate copies of VersaCAD software and supporting documentation to educational institutions.

VersaCAD – Archway Systems’ premier CAD software system was designed to provide maximum efficiency with minimum system requirements:

### **System Requirements**

VersaCAD runs on any Macintosh ever built. VersaCAD 2005 is Built for Mac OS X and requires: 256MB ram, 20 mb on hard drive and any monitor. OS X 10.3 Panther or above.

Suggested configurations: Mini Mac or iMac. G5 computers with 512MB or more and top end graphic cards with large screens provide top performance.

### **Availability**

VersaCAD is available for both Windows-based and Macintosh operating systems.

Purchase VersaCAD through VersaCAD dealers or from [www.versacad.com](http://www.versacad.com) .

### **Customer Service**

Archway Systems ranks at the top of all other CAD software companies for customer service. VersaCAD is so easy to install and use, that support is often not needed. For those times when support is needed, Archway Systems provides interactive, online support at [support@VersaCAD.com](mailto:support@VersaCAD.com). Add the convenience and speed of online ordering, and you have an unbeatable value in Archway Systems and its VersaCAD software.

### **Documentation provided**

Unique in the industry, VersaCAD comes with complete hard copy documentation plus bonus extras on the CD including a complete curriculum for teaching CAD based on VersaCAD. The curriculum includes three different course outlines, daily lesson plans, a student guide and exercise files. The course material has been used to train thousands of students.

### **Archway Systems Extra**

Archway Systems strives to provide superior value through technological leadership and premier customer service. Archway’s staff of professionals is committed to the principles of quality software products and services provided at attractive prices.
