

VersaCAD/Parking Structure

Automates Design of Parking Structures

VersaCAD/Parking Structure by Archway Systems is the practical, easy-to-use yet affordable software for automated design of reinforced concrete parking structures. It is compatible with all computer-aided design software programs including AutoCAD or MicroStation.

VersaCAD/Parking Structure reduces manhours, improves design consistency and facilitates optimization of material and space requirements. Key-in data that is always required and the software does the rest, including: design, layout, drafting and material estimation, all automatically.

VersaCAD/Parking Structure is designed for use where speed and efficiency are paramount. No other software matches its automation, processing speed or its versatility in creating designs of parking structures.

VersaCAD/Parking Structure- Automatic Design of Parking Structures

Economy is key. No other CAD software can beat the value of VersaCAD Parking Structure.

Introducing VersaCAD's New Unlimited Corporate License Option

Archway Systems now offers its revolutionary VersaCAD Unlimited Corporate License that reduces costs and increases work quality by making it easily affordable. Subscribers may now purchase an unlimited corporate license based on the number of users in an organization. The license allows for users to install VersaCAD on every system within an organization, even those used at home by company employees.

System Requirements

VersaCAD Parking Structure runs on Windows computers from Win NT and Win 2000 through XP and Vista. VersaCAD requires little hard drive or memory space.

The easy answer is, if Windows XP runs, then VersaCAD/Parking Structure runs. Recommended configuration is any XP computer with XGA graphics and a large, 30" monitor, however, the software will run on laptops as well.

Availability

Purchase VersaCAD/Parking Structure through VersaCAD dealers or by contacting Archway directly.

Customer Service

Archway Systems ranks at the top of all other CAD software companies for customer service. When you call for help, a human is there to respond to your questions. VersaCAD/Parking Structure is so easy to install and use, that support is often not needed. For those times when support is needed, Archway Systems provides interactive, online support at support@VersaCAD.com. Add the convenience and speed of online ordering, and you have an unbeatable value in Archway Systems and its VersaCAD software.

Documentation provided

VersaCAD comes with complete hard copy documentation plus bonus extras on the CD including a complete curriculum for teaching CAD based on VersaCAD. The Parking Structure module includes documentation, as well, including installation instructions and how to access the software.

Archway Systems Extra

Archway Systems strives to provide superior value through technological leadership and premier customer service. Archway's staff of professionals is committed to the principles of quality software products and services provided at attractive prices.
